*Dr. Aiello,
You have changed
my life!*

Benefits of Mini's...

- Simple, gentle, non-surgical procedure
- Immediate results
- Restored confidence with speaking & eating
- Improved attractiveness of your smile
- Costs LESS
- Anchoring for dentures or cemented crowns & bridges
- Preserves bone and facial structure

Why Mini Implants?

The mini dental implant procedure is a much less involved process than the conventional dental implants. For this reason, the procedure can be completed in as little as one simple appointment. In addition to saving time in the dental office, you will have far less discomfort following this procedure due to the minimally involved dental procedure (usually requiring no surgical flaps or sutures). Because the mini dental implants are so time efficient, your dentist is able to perform these procedures more affordably than costs associated with the larger old style dental implants.
